

source-selected 12-port carrier architecture

presentation-invariant, architecture-sensitive

federation of self-reading supports

records, feedback, checkpoints, accepted repair

one public normal form

schedule-independent only under the consensus receipts

geometry and gravity

carrier-to-support bridge: open

S^2 support + BW/KMS

Lorentz / $H^3 \rightarrow 3+1$ events

Einstein branch, conditional

currents and matter

physical current bridge: open

A_5 port response $\rightarrow$ compact current

Standard Model Lie type

matter and QFT, conditional

one source-bound observer world

route identity, attachment, and inhabited-tower receipts remain open
